The Close Encounters Man Mark O'Connell 2017-06-13 The wildly entertaining and eye-opening biography of J. Allen Hynek, the astronomer who invented the concept of "Close Encounters" with alien life, inspired Steven Spielberg's blockbuster classic science fiction epic film and is the subject of History Channel's Project Blue Book, and made an entire nation want to believe in UFOs. In June 1947, private pilot Kenneth Arnold looked out his cockpit window and saw a group of nine silvery crescents weaving between the peaks of the Cascade Mountains at an estimated 1,200 miles an hour. The media, the military, and the scientific community—led by J. Allen Hynek, an astronomer hired by the Air Force—debunked this and many other Unidentified Flying Object sightings reported across the country. But after years of denials, Hynek made a shocking pronouncement: UFOs are real. Thirty years after his death, Hynek's agonizing transformation from skepticism to true believer remains one of the great misunderstood stories of science. In this definitive biography, Mark O'Connell reveals for the first time how Hynek's work both as a celebrated astronomer and as the U. S. Air Force's go-to UFO expert for nearly twenty years stretched the boundaries of modern science, laid the groundwork for acceptance of the possibility of UFOs, and was the basis of the hit film Close Encounters of the Third Kind. With unprecedented access to Hynek's personal and professional files, O'Connell smashes conventional wisdom to reveal the intriguing man and scientist beneath the legend. Tracing Hynek's career, O'Connell examines Hynek's often-ignored work as a professional astronomer to create a complete portrait of a groundbreaking enthusiast who became an American cult icon and transformed the way we see our world and our universe.

UFOs and Close Encounters Phyllis Galde and the Editors of FATE 2018-09-05 Asked where he got the ideas for his stories, Stephen King replied, "My mother would read me FATE magazine—which was about the paranormal, flying saucers, and all that stuff. ...and I was fascinated." Now you can read The Best of FATE. UFOs and Close Encounters brings you the story of Unidentified Flying Objects through key reports—from the encounter that started it all in 1948 to 21st century sightings worldwide—selected from the magazine's over 700 issues. In this book, Kenneth Arnold, the pilot whose 1949 account launched the modern fascination with flying saucers, shares his story. James A. Harder, professor of engineering at the UC Berkely's metallurgical analysis of UFO remains, he says proves they are of extraterrestrial origin. Cambridge historian Harold T. Wilkins discusses findings from his survey of 1,000 years of UFO sightings. Utah State University professor Frank B. Salisbury, PhD, meditates on whether science alone is adequate to explain their existence. Renowned UFOlogist Jaques Vallee shares possible extradimensional, psychic or spiritual explanations. Geologist Robert M. Schoch, PhD, considers on a connection between UFOs and Lost Civilizations. Many others share authentic personal reports of UFOs seen around the world—and even beneath the seas! You will not find any final answers or solutions—they still don't yet exist, contrary to what some people might tell you. But you will find sensible, clear-headed perspectives on the greatest riddle of our time, as seen by those who know the most about it. And it's a good bet that when the solution is found, it will be due in no small part to the efforts of the individuals whose testimonies you'll find in these pages...and those of the most thought-provoking publication of all time—FATE magazine.

Ancient Aliens Philip Coppens 2014-12-15 Ancient civilizations generated many innovations that are difficult to explain, such as the remarkable mathematical accuracy of the pyramids of Giza, the man-made fertile soil of the Amazon known as terra preta, and massive stone monuments too heavy to move in Peru and Lebanon, among other places. Given that modern science cannot explain these mysterious phenomena, one theory holds that ancient aliens were responsible for them. This volume examines the credibility of various paranormal hypotheses, giving readers the opportunity to explore the greatest puzzles of antiquity.

Film, Television and the Psychology of the Social Dream Robert W. Rieber 2013-11-18 This book demonstrates how social distress or anxiety is reflected, modified, and evolves through the medium of the motion picture. Tracing cinema from its earliest forms, the authors show how film is a perfect medium for generating and projecting dreams, fantasies, and nightmares, on the individual as well as the societal level. Arising at the same time as Freud's influential ideas, cinema has been intertwined with the wishes and fears of the greater culture and has served as a means of experiencing those feelings in a communal and taming environment. From Munsterberg's original pronouncements in the early 20th century about the psychology of cinema, through the pioneering films of Melies, the works of the German expressionists, to James Bond and today's superheroes this book weaves a narrative highlighting the importance of the social dream. It develops the idea that no art form goes beyond the ordinary process of consciousness in the same way as film, reflecting, as it does, the cognitive, emotional, and volitional aspects of human nature.

Ancient Aliens in the Bible Xaviant Haze 2017-10-23 Did a distant race of ancient aliens once inhabit the lands of the Bible? Do the ancient writings of the Bible and other texts provide proof of their existence? Did the "prophets" have close encounters with ancient aliens? Were the "angels" physical beings sent to perform specific tasks by their alien masters? Ancient Aliens in the Bible answers these questions and more. Analyzing the historical and archaeological evidence, and using the work of former Vatican translator Mauro Biglino as his guide, Xaviant Haze provides ample proof that what our ancestors described in ancient biblical texts were real-life events and not visions. The UFO encounters in the Bible are described as concrete experiences by flesh-and-blood beings. The angels were assigned specific duties and struggled to carry them out; some even rebelled and took earthly wives, forbidden by their superiors. Ancient Aliens in the Bible reveals that: Lamech's wife gave birth to the son of an angel with glowing eyes. Moses was led to the promised land by UFOs. Noah's great-grandfather, Enoch, got a heavenly tour of space. Your view of the Bible will never be the same.

Armageddon, Close Encounters in the Fifth Kind Frederick Guttmann ¿Cómo cambiar nuestra forma de ver el mundo si nos plantemos que todos los estamentos de la sociedad ser n pronto abolidos? ¿Ver amos la vida de la misma forma si dir ramos lugar a la idea de que nuestra historia ha estado ligada a influencias que no son de este mundo? "Armagedón, Encuentros Cercanos en la Quinta Fase" es una obra que no pasar desapercibida, mucho menos delante de los acontecimientos que est n ocurriendo, aunque el mundo no est al tanto de ellos -porque est siendo distra do. Hablamos de un cambio a escala planetaria en la conciencia humana y del sistema de vida que tenemos, el destape de grandes y sumamente relevantes mentiras que han mantenido enga ado al hombre del siglo XXI, y as mismo el inicio de una existencia libre, s lo posible tras una guerra sin precedentes. Nuestro mundo est a punto de tener los cambios m s significativos de toda la historia humana, desde que se tiene constancia de ella. La vida extraterrestre es una realidad, tal como lo es el hecho de que sabremos toda la verdad sobre la vida fuera de la Tierra y los misterios del universo en esta d cada. El Nuevo Orden Mundial, del cual pocos han o do hablar -a n a estas alturas y con el terreno ya ganado por esos psic patas en todos los medios globales- no conseguir sus fines de eliminaci n poblacional y control totalitario, aunque conseguir n por un periodo muy breve de tiempo muchas de sus agendas. Toda la humanidad est al borde de un cambio de paradigma, no sin antes presenciar la experiencia de la vida extraterrestre inteligente, un mundo dominado por las corporaciones, due os de la banca y de los oleoductos. Entonces el cambio ser radical y no dejar lugar a dudas a m s cuestionamientos, suposiciones o teor as sobre el origen del hombre y de la vida fuera de nuestro orbe azul; de igual modo que no habr m s medias tintas sobre el conocimiento y realidad de la existencia de Jesucristo, no como una religi n sino como una realidad. Esta ser una verdad inamovible que no est sujeta -ni nunca lo ha estado- a religiones, ni a dogmas, ni a espiritualismo, ni a teor as conspiratorias, ni a ciencia ficci n, ni f bulas, ni a cualquier otra creencia abstracta, sino al modernismo de esta centuria y a la revoluci n mundial que hoy nos ata e. Parece dif cil reconciliar la imagen de aquel carpintero que fue clavado en una cruz junto con la ciencia, pero recordemos que los estamentos religiosos que conocemos son relativamente recientes y no fueron impuestos por Jesucristo. Sus ense anzas aparecieron sobre el 26 y/o el 33 d.C. aprox., en cambio las posteriores fueron ciertamente tard as: Catolicismo (325 d.C.), Islam (600 d.C.), Protestantismo (inicios del siglo XIV) Mormonismo (mediados de 1800 d.C.), Testigos de Jehov (1870), etc. En otras palabras, las ense anzas de Jes s no estuvieron sujetas a religiones "cristianas", ya que estas se crearon en nombre de l siglos despu s, mayormente con fines lucrativos o de control de masas. Tengamos presente, antes que nada, que todas las profec as, que han venido de parte de Dios, hasta su momento se han cumplido y nada sugiere que las que a n han de cumplirse dejen de tener lugar; mucho menos cuando estamos viviendo las concisas advertencias que hicieron hombres modelo en tiempos antiguos, y adem s con lujo de detalles. As que tenemos que citar a hombres de otrora para ver c mo se han dado los hechos que anunciaron y qu otros acontecimientos han de tener lugar en nuestra d cada y en los a os que preceder n nuestra era. Ciertamente cada vez podemos ver m s cerca un final de esta edad y el inicio de una nueva historia para la civilizaci n humana. Un cambio que se palpa y comenta en todos los c rculos sociales y culturales. Este cambio viene acompa ado de mucha incertidumbre, dudas sobre c mo ser ese desenlace final y qu ocurrir despu s de ello. La historia de nuestra raza se ha visto constantemente salpicada por grandes extinciones, donde nuestros antecesores han sido diezmados, eliminados t citamente por sucesos catastr ficos que han dado origen a nuevos eones. As se ha visto en lejanas edades desde la prehistoria y as se ve hoy, muy pr ximo a experimentar eventos nunca antes vistos en ninguna etapa anterior de nuestro devenir como civilizaci n. Como hijos de la Tierra hemos de conocer los hechos que han modelado nuestro presente y que han colocado a nuestra raza en el borde del colapso y de la aparente auto-extinci n. Tenemos que ser conscientes de que tal como la arqueolog a nos sirve para revelar los acontecimientos de anta o, tambi n han existido desde otrora m todos para vaticinar el tiempo por venir, y stos han marcado hechos memorables en el registro hist rico. Nosotros los llamamos "profec as", y si bien, desde tiempos de la Grecia cl sica los helenos consultaban el pol mico or culo de Delfos, el que se cree era el m s preciso de todos, aunque se especul que alguna vez se equivoc (m s bien dir amos que dijo lo que sus consultores deb an saber).

Military Encounters with Extraterrestrials Frank Joseph 2018-09-11 The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

Aliens in Ancient Egypt Xaviant Haze 2013-10-31 The alien influences behind the rise and fall of Egypt's Golden Age • Explains how Akhenaten was the last pharaoh entrusted with the sacred and ancient alien knowledge of stargates, free energy, and antigravity technologies • Reveals how the Brotherhood of the Snake, a secret society of reptilian aliens, sought to destroy Akhenaten and suppress the sacred knowledge of the pharaohs • Explores the original purpose of the pyramids--to transmit energy to expand consciousness--and how they were decommissioned after the Great Flood The sophisticated civilization of ancient Egypt arose seemingly overnight, complete with advanced levels of art, agriculture, astronomy, and physics. Then, with the death of Pharaoh Akhenaten, much of this higher knowledge was lost--or suppressed. But evidence of this former Golden Age, the alien visitors behind its rise, and those behind its decline still exists--some of it in plain sight. Examining the purposefully obscured reign of Akhenaten and Nefertiti, Xaviant Haze explains how they represent the last dynasty with access to the sacred knowledge of stargates, free energy, and antigravity technologies, knowledge handed down from an advanced interstellar race in the remote past. He reveals how the reptilian race known as the Shemsu Hor infiltrated the Egyptian priesthood and banking systems and formed the Brotherhood of the Snake--a secret society set on destroying Akhenaten's flourishing kingdom and suppressing the sacred knowledge of the pharaohs. Haze examines the evidence of aliens in ancient Egypt, such as the reptilian beings depicted in the Temple of Hathor and Thutmose III's alien encounter. He shows how Akhenaten and his family are always portrayed with elongated skulls and explores the connection between ancient aliens and Mars, including the Martian materials used in Egyptian monuments. He explains the original purpose of the pyramids--to transmit uplifting energy throughout the planet to help expand consciousness--and explores how they were decommissioned after the Great Flood of prehistory. He reveals how the original builders of the pyramids foresaw humanity's fall from the Golden Age and strategically encoded these magnificent structures to wake humanity from the depths of the Dark Ages.

Sarah Seymore 2013 Before the breakthrough of postcolonial studies, British science-fiction authors already saw the opportunity to discuss political and ethical issues of imperialism by projecting human history and behavior onto the alien 'Other.' In this thesis, the case studies of 15 novels of alien-encounter science fiction illuminate the treatment of colonial and postcolonial concepts - such as colonialism, neo-colonialism, Empire, paternalism, hybridity, mimicry and science and technology - as a means of conquest and resistance. The analysis also shows that the Empire is still a vital background for British science fiction. Thesis. (Series: Anglistik / Amerikanistik; English / American Studies - Vol. 35)

Aliens in Ancient Egypt Carmen Boulter 2012-06-15 There was an epoch in Egyptian history when the arts, agriculture, astronomy, and science (including an understanding of quantum physics) flourished. But overnight, it was destroyed and erased from the historical record. This was the reign of Akhenaten and Nefertiti, an era rife with alien influence, reincarnated starseeds, and an advanced understanding of astronomy and mathematics. The sheer volume of disinformation and controversy attached to Pharaoh Akhenaten is overwhelming. Aliens in Ancient Egypt unravels a deeper story of the corrupt influences of religious zealots who were plunging Egypt into darkness. Our modern world rose from the ashes of the aftermath and, despite our conviction that we are advanced, we are still striving to reach the creative and spiritual heights of the Amarna Period. In this fascinating work, the authors ask (and answer): Were Akhenaten and Nefertiti the last pharaohs to master this sacred knowledge? Could this information have been handed down by an advanced space race during previous golden ages, in a time so distant that it can only be relegated to mythology? Why was their reign so threatening? Who stood to gain by destroying them and attempting to erase their names from history?

Aliens, Gods and Human Civilizations Antariksh "Ancient humans created many incredible things that could not have been possible with their not-so-advance technology. These amazing structures and things make us believe that gods might have helped humans to build them. Who are gods? Where did they come from? These questions are answered by different religions. All religions state that gods came from heaven, but a question – Where is heaven and is it a planet? – arises from this statement. This book tries to answer this question with evidence of aliens in different civilization, close encounters of aliens with humans and alien technology."

Humanity: The Alien Project an Ancient Astronaut Theory Vincenzo J. Macrino 2013-02-01 Since the advent of flight and the infancy of the space program, there have been numerous accounts of UFOs and alien beings. But what about ancient times? Did people observe mysterious objects in the skies prior to the invention of the airplane? Did they speak of mysterious, intelligent creatures from the stars? The answer is "Yes." Since the earliest days of human history, UFOs and their occupants have been witnessed and recorded in detail. These accounts can be found in the writings of Assyria, Babylon, and ancient Egypt; in the Old Testament and apocryphal texts; in the ancient Sanskrit texts of India; in the literature and "legends" of Rome, Norway, Ireland; and in the oral traditions of many tribal cultures around the world, including those of Africa, the Hawaiian Islands, the Easter Islands, and the Americas. Humanity: The Alien Project examines ancient tablets, codices, hieroglyphs, manuscripts, scrolls, and oral traditions that describe alien encounters throughout history. These accounts span centuries, cultures and continents, but they all share the same central theme: the origins of man as it relates to the history of the "gods" and ancient UFO sightings. Author Vincenzo Macrino presents astonishing evidence that our ancestors not only observed strange objects in the skies, but at one time had a close, personal, face-to-face relationship with their occupants, and that in truth, we owe our very existence to the "gods" of the ancient world. In modern times, alien encounters have largely been covered up by media and the military or debunked as "conspiracy theories" or fiction. However, this fascinating investigation of thousands of years' worth of literature and artwork shows that such encounters occurred long before anyone had a desire to cover them up; instead, they recorded these encounters so that mankind would remember them. Are our ancestors really extraterrestrials? The wealth of evidence presented in this work invites you to investigate this theory.

Military Encounters with Extraterrestrials Frank Joseph 2018-09-11 The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.
